

# Model A2 Data Sheet

## Advance Bio-Photon Analyzer

The Advance Bio-Photon Analyzer is one of the most advanced and sophisticated Isopathic generator ever made, while it remains the most simplest to use. The ABPA was developed for the chemical and allergy sensitive clients. The ABPA can make a self tuned custom Isopathic remedy in less than 40 seconds with a range of 0-cmm using intelligence auto potency internal software. The ABPA is the only instrument on the market that contains safety codes software that is both used in the A2 and transferred into the Isopathic media. Just think you now have an instrument that can make advance custom non-magnetic sensitive homeopathic remedies called Isopathic. No more trips to the store to find multiple remedies the ABPA can auto scan and find the best remedy and potency in just 40 second! And safe enough that a child can use, smart enough to figure how to remove energetic stress and stabilize you.

**Q: Just ask you're self, what is my health worth to me??**

**A: Everything !!!!**
